

A year ago Sandilands Ski Club partnered with students from the Steinbach Regional Secondary School's carpentry class to construct a beautiful timber frame warm up shelter. The goal of this warm up shelter is to enhance the outdoor experience for skiers in the Sandilands Provincial Forest. The Sandilands Ski Club was sad to discover that this warm up shelter was vandalized sometime between October 28 and November 02, 2017.

We encourage people who have knowledge of this to come forward. If you have any further information we encourage you to anonymously contact the Sprague RCMP (204-437-2014) or call Crime Stoppers (1-800-222-8477).

The Sandilands Ski Club invites people to continue using this warm up shelter in a respectful manner, leaving the warm up shelter as tidy as you found it. Please remember that the Sandilands Ski Club operates totally through volunteer efforts. It receives NO Government funding.

Respectfully yours Sandilands Ski Club
